

HOMEWORK

Write each word expression as an algebraic expression.

1. Add y and 84. 2. Subtract z from 3.71. 3. y more than 0.2

Write each algebraic expression as a word expression.

4. $y - 2$ 5. $b + 6.4$ 6. $y - 8$

Problem Solving

Write an algebraic expression for each situation. Define your variable.

7. Cayden is 4.3 inches taller now than she was last year. How tall is Cayden now?

Let _____ = _____ inches

8. A pie has been in the oven for some number of minutes. It needs to bake for a total of 60 minutes. For how many more minutes must the pie bake?

Let _____ = _____ minutes

9. A window is 9 feet long. It is x feet longer than it is high.

What is the height of the window?

_____ feet

What is the perimeter of the window?

_____ feet

Write About It

10. Write a story context for the algebraic expression $58 - p$.
