

Graphing Lines given a Point and a Slope

8.8 Worksheet Part 2

Directions: Draw a line that passes through the given point and has the given slope.

1. Given: $(2, 5)$ Slope = 1

2. Given: $(-4, 1)$ Slope = $\frac{2}{3}$

3. Given: $(0, 0)$ Slope = $-\frac{1}{4}$

4. Given: $(-5, -2)$ Slope = -2

5. Given: $(-1, 7)$ Slope = 3

6. Given: $(6, 0)$ Slope = -1

7. Given: (8, 7) Slope = 4

8. Given: (0, 9) Slope = $-\frac{2}{5}$

9. Given: (-3, -5) Slope = undefined

10. Given: (6, -2) Slope = 0

11. Given: (-3, 3) Slope = 2

12. Given: (0, -1) Slope = $\frac{3}{4}$
